***Drawings***

The Examiner accepts the drawings filed on May 8, 2006.

***Allowable Subject Matter***

Claims 1-80 are allowed.

The following is an examiner's statement of reasons for allowance: The present invention generally discloses a hybrid auction combining elements of a clock auction and a proxy auction. However, the prior arts of record fail to teach, singly or in combination, a) implementing the dynamic auction phase on said first a computer, said dynamic auction phase comprising: a1) receiving bids at the first computer from at least one bidder using the at least one other computer, said bids including at least an indicator of at least one of the items; a2) determining whether the dynamic auction phase of the auction should continue, based on received bids; a3) outputting auction information; and a4) repeating a1) - a3) if the dynamic auction phase of the auction is determined to continue; b) changing from the dynamic auction phase to the later phase, following a determination not to continue the dynamic auction phase; and c) implementing the later phase of the auction on said first a computer, the later phase comprising a package auction, said later phase comprising: c 1) receiving bids at the first computer from at least one bidder using the at least one other computer, said bids including at least an indicator of a package of items and an associated price for the package; and c2) determining an allocation of at least one of the items to one of the bidders based on received bids

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
